

Bolivar Peninsula Special Utility District
Update on Water System for February 24, 2009

BOIL WATER NOTIFICATION

Residents of the entire Peninsula are under a boil water notification until further notice. Once the boil water is lifted, residents will be notified on the website, by postings in town, and through the media. Additionally, signs will be placed along Highway 87 stating that the boil water is no longer required. To date, water line flushing and sampling has been completed in Bolivar, Gilchrist, and High Island. Sample results for Bolivar have been received and are acceptable. We will receive the results for Gilchrist and High Island today. **We are currently flushing the system in Crystal Beach and will be collecting water samples in the next couple of days.** Customers may experience short periods of low pressure as we flush the water system. **Please continue to boil water until notified that it is no longer necessary.**

ADDRESSES AT HOMES

Please place your address at your home site to assist District personnel in locating your lot. As personnel read meters, it is very difficult to identify where some homes were located. Your assistance with addressing your home site is greatly appreciated!

MAIN OFFICE LOCATION

Physical Address:	524 FM 1406, Winnie, TX 77665	Office Hours: Monday - Friday
Mailing Address:	PO Box 1398, Crystal Beach, TX 77650	7:30 am – 4:00 pm
Telephone:	(409) 296-3475	Fax: (409) 296-2165

BOOTH AT THE BIG STORE IN CRYSTAL BEACH

A booth at the Big Store in Crystal Beach is now open! The booth will be open from 8 a.m. until 3:30 p.m. Monday-Friday.

TEMPORARY OFFICE IN CRYSTAL BEACH

We have been notified by AT&T that telephone service will be restored to our property at 1840 Highway 87 in Crystal Beach this week. We have made arrangements to obtain an office trailer and we will soon return to the beach! Please check back each week for an update on our progress!

BILLING

All customers that have water service restored to their homes and/or businesses will be billed for service on the 30th of that month. Some bills may be estimated and it will be indicated on the customer's bill.

Customers that are using water and have not yet applied for service should be advised that meters are being pulled at sites that have not yet signed up for service. If service is available in your subdivision and you would like service reinstatement, you are required to submit a new application form prior to using water. Once the meter is pulled it may take several days to have it re-installed. Please call the office at (409) 296-3475 if you have any questions. (Please see "Applying for Water Service" below.)

BOARD SEEKING NEW MEMBER

Bolivar Peninsula Special Utility District's Board of Directors is seeking interested candidates to consider for appointment to a vacated position on the Board. Qualifications for a Board Member are as follows: 1) you must be at least 18 years old, and 2) you must be a resident of Texas and have resided in the State for 12 continuous months, and 3) you must be one of the following: a property owner of the Bolivar Peninsula, or a registered voter of the Bolivar Peninsula, or a user of the facilities (receive water from the District). If interested in filling this position, please complete an application and submit it to the District office. The application is available on the District website at www.bpsud.com or can be obtained at the District office. Submittal of a resume is recommended but not required. For more information please call (409) 296-3475. **Deadline to apply is March 6, 2009.**

POLICY FOR LEAKS DUE TO HURRICANE IKE

The District's Board of Directors adopted a new policy regarding charge adjustments for leaks caused by Hurricane Ike. Please see "Hurricane Ike Leak Adjustment Policy" at:

<http://www.bpsud.com/documents/ikeleakprocedure.pdf>

CUSTOMER SERVICE INSPECTIONS

All customers will be required to have a customer service inspection performed at their service location within sixty (60) days of service restoration. This is a State requirement that requires us to ensure that no lead solder is used in plumbing and that proper backflow prevention devices are in place where needed. For most residential customers, an atmospheric vacuum breaker (AVB) is required on each hose bib to prevent backflow to the water system. AVB's can be purchased at any hardware store and they are available at the District office for \$4.00 each. Please ensure that an AVB is installed on every hose bib at your home before the inspection is scheduled. After service is restored to your home, you will be contacted by District personnel to schedule the inspection. After the inspection is performed, you will be billed \$50. (This fee includes \$25 for the inspection and a \$25 trip fee).

SERVICE RESTORATION SCHEDULE

SERVICE IS NOW AVAILABLE TO ALL AREAS OF THE PENINSULA!

We are now working to replace water lines in the areas listed below. Please check back weekly to see if service has been restored. Please be advised that we will not be able to replace water lines unless the street is constructed. **PLEASE NOTE: If water has not yet been restored to your street and you are interested in water service, please submit your application and easement form to our office. We are prioritizing service restoration based on customer requests for service.**

1. Singing Sands Subdivision: No service available on Tarpon Way.
2. Rancho Carribe Subdivision: **SERVICE NOW AVAILABLE TO ALL OF VILLA DRIVE**
3. Bluewater Subdivision: No service available on Bluewater Road. No service available to Brint Drive.
